About Seqrite Centralized Security Management

With cyber threats constantly evolving, getting smarter, and more sophisticated, it's time you get holistic visibility of security posture in one place to mitigate risks before it becomes a disaster.

Seqrite Centralized Security Management is a cloud-based platform that will enable coordination between different security layers, integrate cybersecurity silos into a single pane of truth, and ensure your point products communicate with each other to consolidate alerts, identify risks, and convert the data into intelligence.

Seqrite Centralized Security Management will enable your business to prevent real-time malware breaches, make insight-driven decisions, and accelerate vital security functions quickly and effectively with just a few clicks.

Supported Seqrite Products

With Seqrite Centralized Security Management 2.6.2, you can manage the following Seqrite products:

- Seqrite Endpoint Protection (Cloud) with DLP as add-on
- Seqrite XDR
- Seqrite Enterprise Mobility Management/Workspace
- Seqrite Data Privacy
- Seqrite ZTNA

New Features in Seqrite Centralized Security Management 2.6.2

Seqrite Centralized Security Management 2.6.2 offers the following features.

Device Management Enhancements

- **Device Filtering Enhancement**

Introducing the Device Filter feature, empowering users to find device records based on specific criteria. This enhancement simplifies device management by enabling targeted and precise data retrieval.

- **CSV Export Functionality for Device Data**

Addition of CSV export capability. Users can now seamlessly export device records to CSV files, facilitating convenient data sharing, analysis, and integration with external tools.

- **Disconnected Device Deletion**

Improving system cleanliness by adding a new feature: now you can delete devices that are not connected. This ensures that your records are accurate and organized with only up-to-date and active devices.

Technical Support

Seqrite provides extensive technical support for its users. In case you face any technical issue, you can contact our Technical Support center using the options available at the following URL:
