Introducing Seqrite Data Privacy

Seqrite Data Privacy is a data privacy management platform that empowers your organization to manage data privacy requirements across locations. The platform provides the ability to find sensitive and critical data spread across your organization's data landscape. It enables you to classify and label this data to suit your business and privacy compliance requirements. Seqrite Data Privacy lets you manage the subject profiles and subject rights requests.

Starting your data privacy journey with Seqrite Data Privacy:

- Get visibility into the different data and data sources present across your organization's data and entities perimeter.
- Auto-classify discovered data using pre-built or custom classifiers.
- Channel multi-level workflows to ensure appropriate handling of data across the organization.

What's New

Seqrite Data Privacy 2.1.2 includes the following new feature(s):

Introducing the New 'Brand Seqrite'!

In this release, introducing a comprehensive rebranding initiative featuring new product names and logos.

This update introduces the following key highlights:

- Effective April 8, 2024, we have refreshed our brand to simplify cybersecurity, making it easier for users to navigate. This includes streamlined product names for a more intuitive experience.
- The **HawkkScan** product name has been retired and replaced with **Seqrite Data Privacy** to align with industry standards, offering users a clearer understanding of our cybersecurity solutions.
- Rest assured, despite the brand refresh, our commitment to providing reliable and top-notch security remains unchanged. The Seqrite team continues to prioritize your protection with robust and dependable solutions.
- Take the opportunity to explore 'Brand Seqrite' and discover how our revamped brand can empower your business to thrive in today's ever-changing digital landscape.

Learn more about the change [here](#).
