## Introducing Seqrite ZTNA

---

Seqrite ZTNA from Seqrite helps organizations enforce the zero-trust user access paradigm, where an organization by default does not trust any employee, contractor, or vendor staff with access to its systems and applications whether from within or outside the corporate network. It also replaces the complexity of VPN management.

Starting your zero-trust journey with Seqrite ZTNA:

- Create a zero-trust ecosystem with controlled set of users and applications.
- Deploy an agent-less solution and expand as per security appetite.
- Plug in your security requirements and deploy Seqrite ZTNA within minutes.
- Integrate Seqrite ZTNA with your existing IT infrastructure for identity management.

## What's New

---

Seqrite ZTNA 2.2.1 includes the following new features.

### Introducing the New 'Brand Seqrite'!

In this release, introducing a comprehensive rebranding initiative featuring new product names and logos.

This update introduces the following key highlights:

- Effective April 8, 2024, we have refreshed our brand to simplify cybersecurity, making it easier for users to navigate. This includes streamlined product names for a more intuitive experience.
- The **HawkkProtect** product name has been retired and replaced with **Seqrite ZTNA** to align with industry standards, offering users a clearer understanding of our cybersecurity solutions.
- Rest assured, despite the brand refresh, our commitment to providing reliable and top-notch security remains unchanged. The Seqrite team continues to prioritize your protection with robust and dependable solutions.
- Take the opportunity to explore 'Brand Seqrite' and discover how our revamped brand can empower your business to thrive in today's ever-changing digital landscape.

Learn more about the change [here](#).

### Agent Upgrade Option in User Interface (UI)

Administrators now have the ability to select devices and re-trigger upgrades for failed ones directly from the UI. This feature enhances the upgrade process, providing more control and efficiency.

## Technical Support

---

Seqrite provides extensive technical support for its users. In case you face any technical issue, you can contact our Technical Support center using the options available at the following URL:
