## Introducing Seqrite Data Privacy

---

Seqrite Data Privacy solution helps organizations discover, locate, classify, and label sensitive data throughout their enterprise resources, ensuring adherence to privacy laws corresponding to different geographical areas. The solution allows privacy teams to shift through various applications, databases, and other IT sources; creating profiles to keep track of personal and confidential customer data and managing workflows for requests of access or modification of such data.

Begin your journey to safeguard the sensitive data with Seqrite Data Privacy solution.

- Get visibility into the different data and data sources present across your organization's data and entities perimeter.
- Auto-classify discovered data using pre-built or custom classifiers.
- Channel multi-level workflows to ensure appropriate handling of data across the organization.

# What's New

---

Seqrite Data Privacy 2.2.1 includes the following new features.

## Introduced the Cookie Consent Manager

Introducing the Cookie Consent Manager, designed to help businesses comply with global privacy regulations. This feature enables admins to easily configure, customize, track, and manage consent preferences for website visitors. With real-time insights into consent acceptance and declines, organizations can ensure compliance while fostering user trust.

## Navigation Pane Changes

The new navigation pane has been enhanced to organize better and group modules that create a streamlined experience that facilitates quicker access to essential features.

## Known Issues

---

Here are some of the known issues in version 2.2.1.

**Overlay Reset:** Categories in the overlay are reset when users edit their cookie consent settings.

**Text Insertion Mismatch:** When users type 2-3 sentences and attempt to insert a new sentence in front of the previous text, the positioning may get misaligned.

**Mac Devices:** The Cookie Consent Manager user interface does not render properly in the Safari browser.

## Technical Support

---

Seqrite provides extensive technical support for its users. In case you face any technical issue, you can contact our Technical Support center using the options available at the following URL:
