What's New

Seqrite Data Privacy 4.0.0 includes the following enhancement.

- **Introduced Seqrite Nova Data Privacy**
  Introduce three new editions to the Seqrite Data Privacy portfolio: Seqrite Nova DP Lite, Seqrite Nova DP Essentials and Seqrite Nova DP Professional. These editions cater to different organizational privacy and compliance requirements, combines Endpoint Protection (EPP) and Data Loss Prevention (DLP) with core privacy modules, Data Discovery, Cookie Consent, and Consent and Preference Management.

- **Consolidated Discovery and Classification Dashboard**
  Introducing the all-new Discovery and Classification dashboard. This dashboard provides centralized visibility and actionable analytics across all data discovery and classification activities, complementing the existing **Tag Analysis** dashboard.

  Key Highlights and Capabilities

  - **Dedicated Discovery Workspace:**
    - ✓ Accessible directly from the **Dashboard** menu under a new **Discovery Dashboard** tab, alongside **Tag Analysis**.
    - ✓ Structured into two views: Organized into **Data Sources** and **Devices** views for easier navigation.
  - **High-Level Metric Cards:**
    - ✓ **Classified Records:** Total volume of sensitive records discovered.
    - ✓ **Matched Classifiers:** Number of unique classifiers detected.
    - ✓ **Visually Marked Files:** Total count of sensitive files visually flagged.
  - **Visual Analytics and Insights (Data Sources and Devices):**
    - ✓ **Classification by category:** Interactive pie chart visualizing data distribution across Classifier Categories and Subcategories.
    - ✓ **Top Matched Classifiers:** Quick view of the top 5 most frequently detected classifiers, with a **View All** option for full drill-down.
    - ✓ **Classifiers wise number of instances:** Visual rankings of classifiers across instances (Data Sources) and endpoints (Devices).
    - ✓ **Classified Records per Instance:** Shows where the most sensitive data is stored.
    - ✓ **Instances wise matched classifiers:** Detailed split of completed scans (scheduled vs. on demand) per instance or device.
    - ✓ **Classified records by data source category:** Group-level distribution by data source category (Databases, Cloud Storage, File Servers) and device groups.

Copyright © 2026 Quick Heal Technologies Ltd.

- ✓ **Instance wise and total completed scans:** Shows the number of scans completed for each instance and across all instances.
- ✓ **Visual Marking Distribution:** Proportional breakdown of marked sensitive files by classification category.

- **Data Scanning and Classification of Privately Hosted Cloud Data Sources**

  To support organizations operating within strict network boundaries, Seqrite Data Privacy (SDP) now enables secure data discovery and classification directly inside private Virtual Private Clouds (VPCs).
